

State of North Carolina

RECOMMENDED CONTINUATION BUDGET

AND FUND PURPOSE STATEMENTS, 2013-2015

NATURAL AND ECONOMIC RESOURCES

Pat McCrory

Governor

Introduction

The *Recommended Continuation Budget, Line Item Detail, 2013-2015* details Governor McCrory's recommended fiscal plan for continuing operations of the State of North Carolina for the upcoming biennium. For presentation purposes, the various departments of state government are grouped by the following functions:

- Education
- General Government
- Health and Human Services
- Justice and Public Safety
- Natural and Economic Resources
- Transportation

Funds are presented in numerical order within budget code. The budget codes are also ordered numerically by their last four digits, which typically represent a department or division, and then by their first digit, which represents a fund type. For example, budget code 84210 precedes code 14222, which precedes 84290. The only exceptions to this order occur where the last four digits of the budget code deviate from the usual department/division designation.

The proposed continuation budget for each budget code and fund code is presented beginning with summary tables for each budget code followed by fund details for each budgeted fund within the budget code. Summaries for each budget code are listed below:

- Summary by Fund
- Summary by Account
- Position Counts, Summary by Fund
- Position Counts, Summary by Account

For each fund, "Fund Detail" presents the information termed "Worksheet I" in the budget preparation system. Tabular data are presented for 2011-12 actual amounts spent or received, 2012-13 certified and authorized amounts, and 2013-14 and 2014-15 recommended amounts.

Requests for further information may be directed to the Office of State Budget and Management, 20320 Mail Service Center, Raleigh, N.C. 27699-0320, or telephone (919) 807-4700. These files may also be downloaded from the Office of State Budget and Management Web site, www.osbm.state.nc.us.

Brief Definitions

Recommended Budget	Total of continuation and expansion budgets submitted by the Governor to the General Assembly for a biennium beginning with an odd-numbered year, for example, 2013-15.
Continuation Budget	That portion of the recommended budget that maintains existing authorized levels of recurring services in agencies for a biennium. The continuation budget is based on the current year's authorized budget; it may be adjusted through Worksheet I's for level of expenditure, inflationary increase, increase in services required, annualization of programs, reduction for nonrecurring programs, and adjustments for receipts.
Expansion Budget	That portion of the recommended budget that presents additional operating funds for expansion of existing programs, including inflationary cost for the state's share of locally-operated programs, new programs, or pilot projects; proposals to change a statutory-controlled program by redirecting funds from one program to another; onetime major equipment purchases; and continued phase-in of new programs initiated in a previous biennium.
Certified Budget	Once the state budget is approved by the General Assembly and released, the Office of State Budget and Management (OSBM) certifies the official budgets to state agencies. Agencies can then operate under the new budget. The State Budget Officer certifies the appropriations, revenue, and condition of the fund to the Office of State Controller and the State Treasurer. The certified budget reflects budget revisions that were specifically mandated by the General Assembly.
Authorized Budget	The certified budget plus revisions delegated to the Office of State Budget and Management and to agencies by the Executive Budget Act.
Fund Code	Funds (or budget centers) are established as a result of authorization by the General Assembly; changes in the accounting standards; authorizations by OSBM; and/or grant awards from federal, state, local, or private agencies, or from individuals. The fund code is a four-digit number that, with its parent budget code, uniquely identifies the fund. The terms "purpose" and "activity" are sometimes used as synonyms for "fund."
Budget Code	The Office of State Budget and Management and the Office of State Controller together with the State Treasurer determine a five-digit number (budget code) for budgetary reporting. This number generally identifies major fund types and the responsible entity for reporting. The first digit is the fund type. The second and third digits are usually the department/division code. Budget codes are established for the following fund types:

0xxxx - Institutional Funds Revenue
1xxxx - General Fund
2xxxx - Special Funds
3xxxx - Federal Funds
4xxxx - Capital Project Funds
5xxxx - Enterprise Funds
6xxxx - Trust and Agency Funds
7xxxx - Service Funds
8xxxx - Highway Funds

Department of Environment and Natural Resources

MISSION:

Preamble: It is recognized that the N.C. Department of Environment and Natural Resources' primary mission is to protect North Carolina's environment and natural resources. In executing this mission, DENR operates with the broad-based understanding that the following three fundamental principles are integral components of its protective mandate.

Fundamental Philosophy: In its essence, DENR is a service organization. Whether managing parks and zoos or issuing permits, agency personnel, operating within the confines of the regulations, must always be a resource of invaluable public assistance, rather than a bureaucratic obstacle of resistance.

Fundamental Economics: Acknowledging that a traditional cost/benefit analysis is not always fully applicable to matters of the environment and public recreation, the agency will be continually cognizant that an economic cost/benefit analysis is an integral component of DENR's public service endeavor.

Fundamental Science: That all decisions are made with a respect and understanding that environmental science is quite complex, comprised of many components, and most importantly, contains diversity of opinion. In this regard, all public programs and scientific conclusions must be reflective of input from a variety of legitimate, diverse and thoughtful perspectives.

The Outcome

That a collaborative stewardship among the citizens, government regulators and the business community will maintain and enhance North Carolina's environment and natural resources for the benefit and enjoyment of everyone living in or visiting our great state.

Department of Environment and Natural Resources

Budget Code 14300 *Dept Environment and Natural Resources - General Fund*

Administration

Fund Code - 14300 1130 *Regional Field Offices*

This fund provides administrative and technical staff for DENR's field personnel located in the Regional Offices. These field personnel are the service delivery arms of DENR, the local contacts between DENR and citizens, businesses, and local government units. The field staff monitor compliance with regulations and permits, gather environmental data about areas of the state, and coordinate interagency and local communications.

The Executive Offices provide policy, management, and budget guidance for DENR programs, ensure that legislation is carried out, and implement policy directives of the Governor. Through planning, coordination, supervision, and management review and accountability, executives ensure that DENR operates efficiently and effectively. Administrative Services activities include: (1) accounting related activities; (2) budgeting and planning; (3) purchasing and contract administration, property management, and office support functions; (4) information technology infrastructure; (5) human resources management; (6) public information functions; and (7) customer service functions. The fund also supports the programmatic, environmental education functions contained within the Office of Environmental Education and Public Affairs. The environmental education section increases environmental literacy and natural resource stewardship in North Carolina by encouraging, promoting and supporting environmental education programs, facilities and resources throughout the state. The section serves as the state's clearinghouse for environmental education resources, and is responsible for implementing the N.C. Environmental Education Act, drafting the state's Environmental Education Plan and establishing policies to guide environmental education material and program development, including a certification program for professional development.

Management responsibilities include acquisition and construction of park lands and facilities, stewardship of sensitive natural resources, and providing for visitor safety and enjoyment. In addition to managing the state parks system, the division also provides technical assistance related to local park and recreation issues, promotes the development and management of a statewide system of trails and greenways, and administers the Parks and Recreation Trust Fund Authority.

Pollution Prevention and Environmental Assistance

Fund Code - 14300 1615 *Division of Pollution Prevention*

This fund is one of two (1615 in budget code 14300 and 6760 in budget code 64303) that support the Division of Environmental Assistance and Outreach, a non-regulatory program that helps clients understand and meet state and federal environmental requirements. Services include:

hands-on small business compliance assistance; one-stop permit coordination; recognition of environmental excellence among industries, municipalities and institutions; and identification of cost-effective, pollution prevention solutions. A staff-operated, toll-free phone service responds to specific inquiries and provides technical assistance on a wide range of environmental issues. Both services are essential to evaluate surface water and groundwater quality as well as the level of treatment from privately and publicly owned wastewater treatment systems.

Fund Code - 14300 1655 *Groundwater Management*

This fund was consolidated into 1690.

Fund Code - 14300 1660 *Groundwater Protection*

This fund is used to improve protection of groundwater quality through resource characterization and monitoring, developing appropriate groundwater quality standards, maintaining permit compliance information, protecting groundwater used for drinking water, resource evaluation, and enhancing public participation in groundwater protection. This fund is supported solely by a grant from EPA.

Fund Code - 14300 1685 *State Revolving Fund*

This fund is used to administer State Tribal Assistance Grants (as appropriated by Congress) on behalf of EPA. These federal grants provide assistance to local governments for drinking water and clean water infrastructure projects.

Fund Code - 14300 1690 *Water Quality Control*

This fund is used to monitor, evaluate and enhance water quality in the state; issue permits for disposal of wastewater; and develop strategies to maintain and improve water quality through the basinwide approach to water quality management. This fund also is used to inspect permitted facilities for compliance with state and federal water quality rules and regulations; to take appropriate enforcement action to encourage compliance; to provide technical assistance and to certify operators of wastewater treatment facilities to encourage optimal operation. Further, this fund supports the development of scientifically-based water quality standards to protect water quality, evaluation and modeling impacts of pollutant loadings, and the investigation of environmental emergencies, such as chemical spills and fish kills.

Fund Code - 14300 1695 *Water Quality Permit Fee*

This fund is used to monitor, evaluate and enhance water quality in the state; issue permits for disposal of wastewater; and develop strategies to maintain and improve water quality through the basinwide approach to water quality management. This fund also is used to inspect permitted facilities for compliance with state and federal water quality rules and regulations; to take appropriate enforcement action to encourage compliance; to provide technical assistance and to certify operators of wastewater treatment facilities to encourage optimal operation. Further, this fund supports the development of scientifically-based water quality standards to protect water quality, evaluation and modeling impacts of pollutant loadings, and the investigation of environmental emergencies, such as chemical spills and fish kills. It is important to note that by statute (G.S. 143-215) there is a limitation on the amount of the permit receipts that can be used to support the program. Thus, other fund sources are necessary to support the division's needs. This fund is one of nine with positions (1635, 1660, 1685, 1690, 1695, 1705, 1710, 1720, and 1725 in budget code 14300) for the Division of Water Quality.

Fund Code - 14300 1705 *Water Quality - Albemarle/Pamlico Sounds*

This fund is receipted through contract agreements with other agencies to monitor, evaluate and enhance water quality in the state through specific projects funding. Projects include assistance to the Department of Transportation for wetland projects and issuance of permits (Federal Clean Water Act 401 Water Quality Certifications), identification of sources of impairment for impacted watersheds (i.e., North Carolina Ecosystem

Enhancement Program), and development of the coastal component (i.e., habitat enhancement) of the non-point source management program.

Fund Code - 14300 1710 *Water Quality - EPA Grant*

The purpose of this fund (i.e., the 205(j) grant) is to monitor, evaluate and enhance water quality in the state through EPA project grants. Examples of these projects include studies of waterborne mercury in North Carolina, contracts for the completion of Total Maximum Daily Loads on the state's impaired waters, the delineation of the Level IV Ecoregion mapping for North and South Carolina and pass-through grants to local and regional governments and non-profit organizations for water quality planning and education. Over 40 percent of the federal 205(j) grant is required to be pass-through to lead regional organizations. This fund is supported by EPA grants.

Fund Code - 14300 1720 *Nonpoint Source - Water Quality*

This fund supports the 319 Grant Program, which focuses on reducing pollution from nonpoint sources and non-discharge wastewater treatment systems. The program funding is used to monitor, evaluate, and enhance surface water quality in the state; issue permits for disposal of wastewater; and develop strategies to maintain and improve water quality through the basinwide approach to water quality management. The program inspects permitted facilities for compliance with state and federal water quality rules and regulations, takes appropriate enforcement action to encourage compliance, develops scientifically based standards designed to protect water quality, and evaluates and models impacts of pollutant loadings on surface waters. Specially, this program includes editing of river basin publications to incorporate changes in N.C.'s river basin boundaries, printing of river basin materials, including a poster, booklet and 17 educational inserts, and a quantitative evaluation of the materials. These publications will be distributed throughout the state to educators and to the public. This grant also provides funding for temporary assistance to manage the grant.
