

**Corrected Census 2020 Total Population, Household Population, Group Quarters Population, Total Housing Units, Occupied Housing Units, and Vacant Housing Unit Counts for Governmental Units**

Note: Corrected counts are a result of the Count Question Resolution (CQR) Program.

Federal Register/Vol. 86, No. 207/Friday, October 29, 2021 (Introduction): No new census information products will be created by the 2020 Census CQR and no revisions will be made to 2020 Census information products, such as the apportionment counts delivered to the President for apportionment or the 2020 Census Public Law 94-171 Redistricting Data Files and Geographic Products.

The state-level census counts are presented, regardless of whether or not there was a CQR change to the counts at the state level. Below the state level, the tables present census counts only for those governmental units in which a CQR change occurred, with one exception—when a CQR change occurred in a place that is in more than one county, the table displays census counts for all the county parts, regardless of whether or not each part had a CQR change. In this table, the number of governmental units counted as affected includes any change to the totals for the state, counties, functioning county subdivisions, and incorporated places.

For information on data collection, confidentiality protection, nonsampling error, subject definitions, and guidance on using the data, visit the 2020 Census Demographic and Housing Characteristics File (DHC) Technical Documentation webpage at <https://www.census.gov/programs-surveys/decennial-census/technical-documentation/complete-technical-documents.2020.html#dhc-and-dp>

Last updated: 1/24/2024

Number of governmental units affected by CQR to date = 22
