# Introduction

The *Recommended Continuation Budget, Line Item Detail, 2011-2013* details Governor Perdue's recommended fiscal plan for continuing operations of the State of North Carolina for the upcoming biennium. For presentation purposes, the various departments of state government are grouped by the following functions:

- Education
- General Government
- Health and Human Services
- Justice and Public Safety
- Natural and Economic Resources
- Transportation

Funds are presented in numerical order within budget code. The budget codes are also ordered numerically by their last four digits, which typically represent a department or division, and then by their first digit, which represents a fund type. For example, budget code 84210 precedes code 14222, which precedes 84290. The only exceptions to this order occur where the last four digits of the budget code deviate from the usual department/division designation.

The proposed continuation budget for each budget code and fund code is presented beginning with summary tables for each budget code followed by fund details for each budgeted fund within the budget code. Summaries for each budget code are listed below:

- Summary by Fund
- Summary by Account
- Position Counts, Summary by Fund
- Position Counts, Summary by Account

For each fund, "Fund Detail" presents the information termed "Worksheet I" in the budget preparation system. Tabular data are presented for 2009-10 actual amounts spent or received, 2010-11 certified and authorized amounts, and 2011-12 and 2012-13 recommended amounts.

Requests for further information may be directed to the Office of State Budget and Management, 20320 Mail Service Center, Raleigh, N.C. 27699-0320, or telephone (919) 807-4700. These files may also be downloaded from the Office of State Budget and Management Web site, [www.osbm.state.nc.us](http://www.osbm.state.nc.us).

## Brief Definitions

Recommended Budget	Total of continuation and expansion budgets submitted by the Governor to the General Assembly for a biennium beginning with an odd-numbered year, for example, 2011-13.
Continuation Budget	That portion of the recommended budget that maintains existing, authorized levels of recurring services in agencies for a biennium. The continuation budget is based on the current year's authorized budget; it may be adjusted through Worksheet I's for level of expenditure, inflationary increase, increase in services required, annualization of programs, reduction for nonrecurring programs, and adjustments for receipts.
Expansion Budget	That portion of the recommended budget that presents additional operating funds for expansion of existing programs, including inflationary cost for the state's share of locally-operated programs, new programs, or pilot projects; proposals to change a statutory-controlled program by redirecting funds from one program to another; onetime major equipment purchases; and continued phase-in of new programs initiated in a previous biennium.
Certified Budget	Once the state budget is approved by the General Assembly and released, the Office of State Budget and Management (OSBM) certifies the official budgets to state agencies. Agencies can then operate under the new budget. The State Budget Officer certifies the appropriations, revenue, and condition of the fund to the Office of State Controller and the State Treasurer. The certified budget reflects budget revisions that were specifically mandated by the General Assembly.
Authorized Budget	The certified budget plus revisions delegated to the Office of State Budget and Management and to agencies by the State Budget Act.
Fund Code	Funds (or budget centers) are established as a result of authorization by the General Assembly; changes in the accounting standards; authorizations by OSBM; and/or grant awards from federal, state, local, or private agencies, or from individuals. The fund code is a four-digit number that, with its parent budget code, uniquely identifies the fund.

Budget Code

The Office of State Budget and Management and the Office of State Controller together with the State Treasurer determine a five-digit number (budget code) for budgetary reporting. This number generally identifies major fund types and the responsible entity for reporting. The first digit is the fund type. The second and third digits are usually the department/division code. Budget codes are established for the following fund types:

- 0xxxx - Institutional Funds Revenue
- 1xxxx - General Fund
- 2xxxx - Special Funds
- 3xxxx - Federal Funds
- 4xxxx - Capital Project Funds
- 5xxxx - Enterprise Funds
- 6xxxx - Trust and Agency Funds
- 7xxxx - Service Funds
- 8xxxx - Highway Funds

Worksheet I

A component of the Budget Preparation System (BPS) used by state agencies to develop their budget requests for the General Assembly. Each Worksheet I report has these eight columns:

- 1) Description of the expenditure or receipt
- 2) Amount actually spent or received as of June 30 of the first year (2009-10) of the current biennium (2009-11)
- 3) Amount certified by the General Assembly for the second year (2010-11) of the current biennium (2009-11). Not shown for the university system.
- 4) Amount authorized by OSBM for the expenditure or receipt during the second year (2010-11) of the current biennium (2009-11)
- 5) Amount of the recommended increase or decrease for the first year (2011-12) of the next biennium (2011-13), as compared to the current year (2010-11) in column 4
- 6) Total amount requested for the first year (2011-12) of the next biennium (2011-13)
- 7) Amount of the recommended increase or decrease for the second year (2012-13) of the next biennium (2011-13), as compared to the current year (2010-11) in column 4
- 8) Total amount requested for the second year (2012-13) of the next biennium (2011-13)
