The Division of Workforce Solutions (DWS) is the administrative entity for funds allocated to the State of North Carolina from the US Department of Labor Workforce Innovation and Opportunity Act (WIOA). WIOA programs provide employment training and related services to adults, economically disadvantaged youth and dislocated workers. Program funds target training for workers in the business sector where skilled workers are needed to meet demand. DWS implements the required provisions of the WIOA program, establishes policy and guidelines and provides general oversight, monitoring and performance accountability for activities at state and local levels. Additionally, DWS provides employment services to State workers, employers and the public. These services promote economic stability and growth, development of a skilled workforce and a world class economy for North Carolina. DWS also operates one of the nations largest Trade Adjustment Assistance (TAA) programs in the nation, which benefits trade impacted workers. Wagner-Peyser discretionary grant funds are also used for direct staffing to enhance service delivery to jobseekers, employers and individuals.

The North Carolina Utilities Commission has the primary statutory responsibility for administering Chapter 62 of the North Carolina General Statutes, that is, the Public Utilities Act (the Act). As set forth in the Act, the principal purpose of the Utilities Commission is to regulate the rates and quality of service of all investor-owned public utilities operating within the state. The Commission's Gas Pipeline Safety Office's purpose relates specifically to ensuring the safety of natural gas distribution, through inspections of pipeline infrastructure, while adhering to and enforcing state and federal gas safety regulations. Gas Pipeline Safety is committed to encouraging and monitoring the continuing development of a safe state gas pipeline infrastructure, which is essential to economic opportunity and improvement in the quality of life within our state and the well-being of our citizens.

The purpose of the Rural Electrification Authority (REA) is to ensure that customers in the predominantly rural areas of the State have access to adequate, dependable, and affordable electric and telephone service provided by electric and telephone membership corporations in predominately rural areas of the State as set forth in G.S. 117. The Agency is responsible for the oversight of the rules and regulations of the cooperatives to ensure they are administered to their members according to the manner in which they are written. The REA serves as an agent in reviewing and making decisions regarding loans and grants submitted by cooperatives to the REA and provides those decisions to the USDA. The REA Agency receives, investigates and resolves complaints received from members of the cooperatives. Pursuant to the 1996 Telecommunications Act, the REA is responsible for the review and decisions of interconnection agreements between the telephone cooperatives and other local providers and is responsible for the establishment and decisions of arbitrations proceedings in the event there are disputed issues in connection with the interconnection agreements.

The North Carolina Credit Union Commission works to advocate for and assist in the formation of state-chartered credit unions and to ensure the safety and soundness of credit unions and their compliance with applicable laws through periodic examinations and other means. This program provides for the development, operation, and management of the Wanchese Marine Industrial Park, a commercial seafood/marine industrial port facility, in order to enhance and support the State's seafood/commercial fishing and marine trades, which improve the overall economy of the area, region, and state. To carry out this responsibility, this division provides new private-sector jobs and business opportunities by: 1) leasing park-owned buildings and/or land for the growth of seafood/marine related businesses; 2) integrating economic development activities with regionalpartnerships; and 3) expanding promotional activities, which will increase awareness of the facility within the targeted seafood/marine industries.

The purpose of the Division of State Historic Sites and Properties is to preserve, develop, interpret, operate, and maintain historic properties and historic resources significant to the state's overall history. This fund supports operational and personnel costs for the division. The Division of State Historic Sites and Properties provides educational programs about the history of North Carolina through its 24 state historic sites. The state historic sites are the foundation of North Carolina's heritage tourism industry, and historic sites serve as tourism anchors for each region of the state. The State Capitol, Fund 1243, is part of this division and is to preserve, interpret, and administer the State Capitol Building, its monuments, the historic furnishings, works of art, and its historical setting.

**105113-DNCR 1243 STATE CAPITOL/VISITOR SERVICES BC 14800**

This fund supports executing G.S. § 121-7 and 121-9. The purpose of the State Capitol branch of the Museum and Visitor Services Section (a site within the Division of State Historic Sites) is to preserve, interpret, and administer the State Capitol Building, its monuments, the historic furnishings and works of art, and its historical setting. To carry out this mission, the Capitol staff strives to enhance visitor knowledge of North Carolina history, the founding of Raleigh as the state's capital city, the evolution of North Carolina government, and the building's role in those functions. The Capitol's historical significance is highlighted by the production of a series of educational programs and special events annually, and by conducting an extensive educational outreach program for schools, government, community, and civic organizations.

**105120-DNCR 1260 OFFICE OF STATE ARCHAEOLOGY BC 14800**

The Office of State Archaeology (OSA) serves the department's statewide interests in prehistoric, historic, and underwater archaeology, and is a vital link among local, state, and federal agencies for all aspects of regulatory compliance, public education, and archaeological research in North Carolina. Underwater archaeology, including the Queen Anne's Revenge project, is a major OSA program. OSA helps protect endangered archaeological sites on private or public lands through enforcement of the North Carolina and federal archaeology laws, and maintains a statewide inventory of archaeological sites and the maps, photographs, and artifact collections that support the inventory. OSA records significant archaeological sites listed in the National Register of Historic Places. Staff archaeologists give lectures, demonstrate archaeological techniques, and prepare publications for school groups, amateur archaeological and historical societies, and government agencies. With the State Historic Preservation Office, OSA reviews permit applications and construction plans receiving state or federal assistance. Staff archaeologists administer grants for archaeological surveys and research, and help museums, universities, and local governments with technical questions on project planning, contract reviews, and archaeological sites protection.

Since its early beginnings in the 1960s, the North Carolina Arts Council has been dedicated to building and supporting a robust arts industry that fuels the state's economy, creates vibrant communities, enhances the education of North Carolina's children, and improves the quality of life for all citizens. The Arts Council's significant investment in the arts for over forty years has developed a sustainable infrastructure of arts organizations that serves every corner of the state. The Arts Council provides leadership, guidance, planning assistance, information resources, technical support and funding to numerous artists, arts organizations and communities statewide. It has created a system of N.C. Arts Trails that showcase the states acclaimed cultural assets through guidebooks and web sites to grow the cultural sector of the state's tourism industry. It has expanded the A+ Schools Program, the most successful national model for arts-based whole school reform. It provides resources to cities and town to produce transformative arts driven economic development projects. Through the Arts Council's extensive programs, the citizens of North Carolina have access to outstanding arts experiences that make a difference in their communities and their lives.

The mission of the North Carolina Symphony is to present an orchestra of the highest artistic standard that enriches, entertains, and educates diverse audiences in a variety of settings and represents North Carolina as a leader in performance and music education. The Symphony has carried out this mission since 1932. It is the first orchestra to receive state funding on a continuing basis. The North Carolina Symphony is singularly unique in its commitment to statewide service and music education. Today, it travels more than 14,000 miles per year and performs more than half of its annual concerts outside the Triangle area. Each season the orchestra performs 45 to 50 full-orchestra music education concerts for fourth and fifth grade students.

**105132-DNCR 1480 STATEWIDE LIBR PROG & GRANTS BC 14800**

This fund provides services that improve, stimulate, increase, and equalize library service to all the people of North Carolina by building the capacity of all libraries in the state. This mission is accomplished via the Library Development Section (<http://statelibrary.ncdcr.gov/ld/index.html>) coordinating programs for libraries to help them increase their capacity to serve their local communities, operating the North Carolina Center for the Book, and conducting statewide programs such as the administration of a federal grants program and continuing education for library staff. This fund also supports the certification of public librarians. (G.S. 125-2(10), 7. and 8.; G.S. 153A-261).

**105135-DNCR 1500 MUSEUM OF HISTORY BC 14800**

This fund promotes understanding of the history and material culture of North Carolina for the educational benefit of the people through collections and historical interpretation at the North Carolina Museum of History in Raleigh, the Mountain Gateway Museum in Old Fort, the Museum of the Cape Fear in Fayetteville, and the Museum of the Albemarle in Elizabeth City. These museums develop, produce, and maintain long and short-term exhibits and associated programs, publications, audiovisual service outreach, and distance learning opportunities to schools and community groups throughout the state. The Division collects, conserves, and documents historical objects significant to North Carolina history and provides assistance to local and regional museums and historic sites. The Division also produces exhibits and programs on national and international history. This is one of two funds that support the division of State History Museums. The other is Fund 1245, which supports the three locations of the North Carolina Maritime Museum.

This fund supports administration, development, maintenance, and operation of a major habitat zoological park that connects people and the natural world with the objective of making the links between human needs, and economic stability, quality of life, and the sound management of natural resources. This is achieved by inspiring appreciation, and fostering an understanding of nature through natural habitat exhibits and their interpretation. And through a variety of linked programs in conservation, education, and scientific research. Major programs include matriculating school groups, teacher training, visitor education, species survival programs, field conservation, rural development, scientific research, ecotourism, and networking with other conservation and education operations.

**209975-DNCR 2321 NC MUSEUM OF ART SPECIAL FUND BC 24801**

This fund is established in accordance with G.S. 140-5.14 (9) for the de-accession of art. The net proceeds from the sale of any work of art owned by the North Carolina Museum of Art, after deduction of the expenses attributable to that sale, shall be deposited in the State treasury to the credit of "The North Carolina Museum of Art Special Fund," and shall be used only for the purchase of other works of art. As an accredited museum, the Museum follows established standards for museum operations. Using the proceeds of artifact sales in this manner is an established requirement of the accrediting organization for museums. The Code of Ethics for Museums issued by the American Alliance of Museums in 2000 notes that a museum must ensure that: 1) disposal of collections through sale, trade, or research activities is solely for the advancement of the museum's mission; and 2) proceeds from the sale of non-living collections are to be used consistent with the established standards of the museum's discipline, but in no event shall they be used for anything other than acquisition or direct care of the collections.

Per Article 3D of Chapter 105 of the General Statutes, the purpose of this fund is to house the receipts generated from the Tax Credit Fee. Legislation allowed the North Carolina Historical Commission to establish a tax credit application review fee that "may not exceed 1% of the completed qualifying rehabilitation expenditures" to be used for personnel (salaries) and equipment/supply costs to improve the timeliness of reviews and response to the public.

Biennial Budgets often appropriate Legislatively Directive Grants. Recipients of those funds are required to submit documentation required by G.S.143C-6-23 and North Carolina Administrative Code (NCAC) Subchapter 03M before DNCR can execute a grant contract and disburse the funds. In order for those funds not to revert at the end of the first year of the biennium, this special fund will be used to hold remaining funds until all funds are disbursed to recipients in accordance with the Biennial Budget.

**215514-DNCR 2200 HOME TOWN STRONG BC 24805**

Hometown Strong coordinates relevant State programs and resources to assist rural communities with developing and implementing realistic, specific plans for promoting regional economic growth and resilience. Hometown Strong works with local government officials, community organizations, nonprofits, and private leaders to leverage and weave together the state's existing relevant programs to stimulate lasting economic development. Hometown Strong, along with key stakeholders, uses a comprehensive, data driven approach to build resilient rural communities that can withstand and recover from both economic downturns and natural disasters. Plans need to incorporate strategies related to all the areas that impact a community's economic resiliency - infrastructure, housing, transportation, workforce training, job development, health, environment, recreation, and cultural resources.

Core objectives of Hometown Strong include, yet are not limited to, the following:

- Establish criteria for selecting and prioritizing which communities to focus on.
- Engage local government, community, nonprofit, and business leaders in the community and analyze available data to identify community-specific challenges and opportunities.
- Consult leading experts and research to identify cost effective, evidence-based policies for addressing specific community challenges and needs.
- Identify relevant programs and resources throughout state government that could be leveraged to address needs.
- Collaborate with community leaders to develop action plans tailored to each specific community, including identification of appropriate state programs that should be leveraged.
- Provide technical assistance to communities in implementing plans.
- Measure results and evaluate the effectiveness of different strategies to inform future investments in rate programs and to improve the planning process for other communities.

**215516-DNCR 2663 NC PUSH BC 24805**

DNCR faces significant challenges in providing a full, multi-faceted history to the public, including aging facilities and outdated exhibits that need substantial expansion, renovation, and enhancement. Many of DNCR's historical sites do not sufficiently provide history in a way that both reflects and attracts the public.

As the stewards of the State's historic, natural, and cultural resources, DNCR is committed to ensuring that a wide array of North Carolinians' stories are represented in the spaces that are dedicated to the preservation of that knowledge, including not only the State's historic sites and resources, but also its parks, zoo, aquariums, science and art museums, and symphony.

In 2021, DNCR began the Priority Updates to State History (PUSH) initiative, prioritized six sites and engaged a consulting firm, to conduct visitor experience assessments of these historical and cultural sites.

DNCR will update online content, virtual engagement, tour scripts, and exhibit content, and develop and construct exhibitions to ensure that fuller, more up-to-date, and more accurate stories are represented within existing state historical and cultural institutions and programs. With these funds, DNCR will begin to make the recommended improvements at the six sites, will conduct similar assessments at six additional sites deemed most in need for modernization, and will create meaningful and widespread changes across programs.

Recreational Trails Program funds come from the Federal Highway Trust Fund, and represent a portion of the motor fuel excise tax collected from nonhighway recreational fuel use: fuel used for off-highway recreation by snowmobiles, all-terrain vehicles, off-highway motorcycles, and off-highway light trucks. The purpose of the Recreational Trails Program (as stated in CFDA# 20.219) is to provide funds to states to develop and maintain recreational trails and trail-related facilities for both nonmotorized and motorized recreational trail use. This program's intent is to meet the trail and trail-related recreational needs identified by the Statewide Comprehensive Outdoor Recreation Plan. Grant funding is for trail planning, construction, maintenance, signs, and related facilities.

The fund shall be used only for the following purposes in addition to those set forth in G.S. 143-202.2: (1) The expenses of operating and maintaining the properties managed by the Roanoke Island Historical Association pursuant to G.S. 143-202.1, including the salaries and benefits of Roanoke Island Festival Park (RIFP) for staff. (Appropriations received into Budget Code 14802 Fund 1584 are transferred and spent from the Historic Roanoke Island Fund to support operations and appropriated positions.) (2) Capital expenditures for the properties operated by the Association pursuant to G.S. 143-202.1. (3) The restoration, preservation, and enhancement of the appearance, maintenance, and aesthetic quality of U.S. Highway 64/264 and the U.S. 64/264 Bypass travel corridor on Roanoke Island and the grounds on RIFP. However, the local government with jurisdiction over the affected portion of the travel corridor shall process the applications for and issue the certificates of appropriateness and shall be responsible for the enforcement of those certificates and any ordinances or rules adopted by the local government regarding that portion of the travel corridor within the local government's jurisdiction, and no reimbursement shall be made from the Fund to any local government for the processing of applications or issuance of certificates of appropriateness or the enforcement of those certificates, local ordinances, or rules. (4) To identify, preserve, and protect properties located on Roanoke Island having historical significance to the State of North Carolina, Dare County, or the Town of Manteo consistent with applicable State laws and rules. The DNCR shall transfer to the Fund on a monthly basis a pro rata share of the utilities, maintenance, and operating expenses of the Outer Banks History Center, which is located in the RIFP. The funds received pursuant to this subsection shall be credited to the Historic Roanoke Island Fund. The North Carolina Education Lottery (NCEL) is a major enterprise fund for the State of North Carolina established by statute in G.S. 18C. The purpose of the NCEL is to generate funds from lottery sales to further the goal of providing enhanced educational opportunities so that all students in the public schools can achieve their full potential, to support school construction, and to fund college and university scholarships. Proceeds generated from retail sales of lottery products are the principal source of revenues for this fund. The significant operating expenses of this fund include the cost of prizes and retailer commissions. A portion of the proceeds are transferred to budget code 54670 to cover the administration of the NCEL. Other transfers from this fund include transfers to the North Carolina Education Lottery Fund (Budget Code 23003) and the North Carolina Education Lottery Reserve (Budget Code 23004), which are both located in the Office of State Budget and Management.

The North Carolina Education Lottery (NCEL) is a major enterprise fund for the State of North Carolina established by statute in G.S. 18C. As permitted by statute, up to 8% of the total annual lottery revenues may be allocated for administrative expenses associated with operating the lottery, but no more than 1% of the total annual revenues may be spent on advertising. Proceeds generated from retail sales of lottery products are first deposited in budget code 54641 and then a portion is transferred to this budget code and budgeted as a receipt to be used for administration. The significant operating expenses of the Administration fund include personnel and the gaming system vendor charges.
