Introduction

The Base Budget Line Item Detail, 2025-27 is the baseline for the upcoming biennium. It details the Governor's recommended fiscal plan for continuing operations of the state of North Carolina for the upcoming biennium.

The base budget for each state agency represents the authorized budget for that agency with certain allowable adjustments (see "Base Budget" under Definitions below).

The various agencies of state government are grouped by the following functions, with a separate Base Budget report provided for each:

- Education
- General Government
- Health & Human Services
- Justice & Public Safety
- Natural & Economic Resources
- Transportation
- Statewide Reserves

These functional groupings correspond to the sections of the Governor's Recommended Budget.

The Base Budget is prepared by the Office of State Budget and Management (OSBM).

How to Read the Base Budget

The Base Budget is organized by state agency/department by budget code. Each budget code is broken into one or more budget funds to separate and manage budgeting activities. Within each budget fund, accounts provide a method to categorize the requirement ("expense") or receipt type. Counts of the number of personnel positions, also known as full-time equivalents or FTE, are also provided.

Different reports show various breakdowns of the totals to provide greater transparency and visibility. Within the report, each budget code contains 4 different views:

- Summary
- Summary by Purpose/Fund
- Summary by Account
- Fund Detail by Account, with a description of the purpose of each budget fund

All reports are generated by the NC Integrated Budget Information System (NC IBIS) and are termed "Worksheet I" in NC IBIS.

Each report has eight main columns:

- 1) Description of the expenditure or receipt
- 2) Amount spent or received as of June 30 of the first year (2023-24) of the current biennium (2023-25)
- 3) OSBM certified amount for FY 2024-25, including legislatively authorized revisions.
- 4) OSBM authorized amount for FY 2024-25, including revisions authorized by legislation and/or by OSBM
- 5) Amount of recommended increase or decrease for the first year (2025-26) of the next biennium (2025-27), as compared to the current year (2024-25) authorized amount
- 6) Total amount requested for the first year (2025-26) of the next biennium (2025-27)
- 7) Amount of the recommended increase or decrease for the second year (2026-27) of the next biennium (2025-27), as compared to the current year (2024-25) authorized amount
- 8) Total amount requested for the second year (2026-27) of the next biennium

Definitions

Authorized Budget

The certified budget plus revisions delegated to the OSBM and to agencies by the State Budget Act.

Base Budget

The portion of the recommended budget that provides the baseline for the next biennium. The base budget for each state agency is the authorized budget for that agency with adjustments for the following:

1. annualization of programs and positions;
2. reductions to adjust for items funded with nonrecurring funds during the prior fiscal biennium;
3. increases to adjust for nonrecurring reductions during the prior fiscal biennium;
4. adjustments for federal payroll tax changes;
5. rate increases in accordance with the terms of existing leases of real property;
6. adjustments to receipt projections, made in accordance with GS 143C-3-5(b)(2)c.;
7. reconciliation of intra-governmental and inter-governmental transfers.

Budget Code

OSBM and the Office of State Controller together with the State Treasurer determine a five-digit number (budget code) for budgetary reporting. This number generally identifies major fund types and the responsible entity for reporting. The first digit is the fund type. The second and third digits are usually the department/division code.

Budget codes are established for the following fund types:

- 0xxxx - Institutional Funds Revenue
- 1xxxx – General Fund
- 2xxxx - Special Funds
- 3xxxx - Federal Funds
- 4xxxx - Capital Project Funds
- 5xxxx - Enterprise Funds
- 6xxxx – Trust and Agency Funds
- 7xxxx - Service Funds
- 8xxxx - Highway Funds

Certified Budget

Once the state budget is approved by the General Assembly and released, the Office of State Budget and Management (OSBM) certifies the official budgets to state agencies. Agencies then operate with the new budget. The State Budget Officer certifies the appropriations, revenue, and condition of the fund to the Office of State Controller and the State Treasurer. The certified budget reflects budget revisions that were mandated by the General Assembly.

Change Budget

The portion of the recommended budget that is an expansion or reduction from the base budget. The change includes enrollment adjustments, entitlement adjustments, one-time purchases, inflationary adjustments, new or expanded programs, as well as other adjustments.

Budget Fund Code

Budget Funds (or budget centers) are established when authorized by the General Assembly; changes in the accounting standards; authorizations by OSBM; and/or grant awards from federal, state, local, or private agencies, or individuals. The budget fund code is a six-digit number that, with its parent budget code, uniquely identifies the fund.

Recommended Budget

Total of the base and change budgets submitted by the Governor to the General Assembly.

Worksheet I

A component of the NC Integrated Budget Information System (NC IBIS) used by state agencies to develop their budget requests for the General Assembly.

The purpose of this fund is to improve services to preschool children and to enhance school readiness services to at-risk children. This office serves children ages 3-5 with disabilities through federal funds including preschool programs, preschool EC, Title I, and the NC Head Start State Collaboration Office. The More at Four pre-K program previously resided here prior to the legislatively mandated transfer per Session Law 2011-145 to the Division of Child Development and Early Education in the Department of Health and Human Services. In Fiscal Year 2019-2020, in agreement with the Department reorganization plan (Section 7.5 of SL 2018-5), the Excellent School Act funding was consolidated within this fund.

202200-DPI 2200 LICENSURE FUND BC 23510

The Licensure Section is responsible for evaluating teaching credentials and issuing new and renewal licenses that qualify individuals to be employed in North Carolina public and non-public schools, as well as in federal, charter and some private schools. The Licensure Section serves all existing and potential public school teachers, administrators and other special service personnel within the state of North Carolina, as well as existing and potential teachers throughout North America and the globe who are interested in teaching in North Carolina. North Carolina statutes specify that all professional employees of public schools hold the appropriate license for the subject or grade level taught or for the professional assignments. The North Carolina Constitution delegates responsibility for setting those standards to the State Board of Education (SBE), whose regulations for licensure are in turn administered by the Licensure Section. As DPI spends funds, the expenditures are recorded in the General Fund 1XXX. Any funds received are receipted into Special Revenue Fund 2XXX. They then transfer into the General Fund 1XXX equal to the amount of the expenditure.

23511-Public Instruction - School Technology Fund

202100-DPI 2100 SCHOOL TECHNOLOGY FUND BC 23511

Established in statute in 1994 (G.S. 115C-102.6D), the School Technology Fund is a non reverting special revenue fund consisting of any monies appropriated to it by the General Assembly and any monies credited to it under G.S. 20-81.12 from the sale of School Technology special license plates. Funds in the State School Technology Fund are allocated to local school systems to implement their technology plans or as otherwise specified by the General Assembly. Funds from the Public School Building Capital Fund, established in Chapter 115C, Article 38A, may also be used for equipment to implement a local school technology plan. As directed by statute (115C-546.2.(b)), capital funds used to implement a local school technology plan are first transferred to the State School Technology Fund and then allocated by that Fund to the local school administrative unit for equipment.

700100-DPI 7104 STATE TEXTBOOK FUND BC 73510

The Textbook Fund is an internal service fund that provides funding for state-adopted textbooks; each LEA is entitled to funding. LEAs use this fund to provide, from the state-adopted list, textbooks for handicapped students. Dollars are allotted based upon Average Daily Membership. The General Assembly broadened the definition of textbook as codified in G.S. 115C-85 as follows: "As used in this part, 'textbook' means systematically organized materials comprehensive enough to cover the primary objectives outlined in the standard course of study for a grade or course. Formats for textbooks may be print or nonprint, including hardbound books, softbound books, activity-oriented programs, classroom kits, and technology-based programs that require the use of electronic equipment in order to be used in the learning process."

211064-NCCCS RURAL COLLEGE BROADBAND BC 26802

This Budget Fund will capture those funds received for Round 3 of Rural College Broadband. Funds will be deposited in 16800 and then transferred to this Budget Fund. Funds will remain here until they are transferred back to match expenditures in the General Fund. This is necessary due to the project crossing fiscal years and eliminate the need to include unspent cash as part of the carryforward requests. Round 2 funding is found in 26800 due to being SFRF funds.

16094-NC School of Science and Mathematics - General Fund

105701-NCSSM 1111 GENERAL ADMINISTRATION BC 16094

The purpose of this section is to organize and manage a residential high school for students who are academically talented in the areas of science and mathematics, and to administer the policies and regulations of the Board of Trustees and the University Board of Governors as well as the provisions of Chapter 116 of the North Carolina General Statutes. Administrative services which are provided to all areas of the school include planning, business operations, computer services, and human resources. This division maintains a student admissions program that will enable talented students from all areas of North Carolina to participate in North Carolina School of Science and Mathematics' (NCSSM) programs. General Administration keeps the citizens of North Carolina informed about the school and its unique educational mission through a comprehensive public communications program. It provides public service functions by conducting in-service workshops for teachers from other North Carolina schools. Further, the administration conducts special programs, institutional research, and evaluation to assess and monitor the success of the school's programs, and solicits funds in support of school programs.

105711-NCSSM 1122 WC GENERAL ADMINISTRATION BC 16094

The purpose of this fund is to organize and manage the Morganton Campus which is part of the NCSSM residential high school for students who are academically talented in the STEM areas of study, and to administer the policies and regulations of the Board of Trustees and the University Board of Governors as well as the provisions of Chapter 116 of the North Carolina General Statutes. Administrative services which are provided to all areas of the school include planning, business operations, computer services, and human resources. This division maintains a student admission program that will enable talented students from all areas of North Carolina to participate in in the Morganton North Carolina School of Science and Mathematics (NCSSM) programs. General Administration keeps the citizens of North Carolina informed about the school and its unique educational mission through a comprehensive public communications program. It provides public service functions by conducting in-service workshops for teachers from other North Carolina Schools. Further, the administration conducts special programs, institutional research, and evaluation to assess and monitor the success of the school's programs, and solicits funds in support of school programs.
